# MADE FOR HARD WORK.

**DESIGNED FOR LONG LASTING PERFORMANCE,  
JCB TOOLS ARE ENGINEERED TO WORK AS HARD  
AS YOU DO - WEEK IN, WEEK OUT.**

The JCB tools range has been designed to meet the demands of the trade by ensuring high quality manufacturing technology and materials are used throughout the range. As part of the JCB family JCB tools continually innovate to get the job done better, with quality that won't let you down.

# PRODUCT TECHNOLOGY

The range includes advanced brushless motor technology providing an extra 25% more power, 50% longer run time and extended motor life. By eliminating the need for carbon brushes, the energy normally lost to friction and resulting heat build-up goes into delivering higher performance and greater long term efficiency.

## 5X LONGER MOTOR LIFE

Brushless motors have fewer wearable parts resulting in increased motor life.

## 25% MORE POWER

Fewer moving parts result in a quiet motor that never needs maintenance. The reduced friction enables a better use of available energy from the battery pack as there is no resistance from brushes.

## 50% MORE RUN TIME

Carbon brush resistance is eliminated, so less battery energy is wasted. The efficiency of a brushless motor results in a greater run time from each charge.

## 1 YEAR WARRANTY

All JCB tools products are backed by a 1-year warranty across all products.
